### Scenario Thinking Workshop - Community Housing

This workshop results from a recent EO workshop and provides an opportunity for community housing leaders to explore together possible futures for community housing.

#### Designed for Executive Officers of community housing providers

##### Workshop overview:

We all know predicting the future can be an uncertain science. Scenario thinking helps us to develop plausible futures on what may unfold in the years ahead. Discover how scenario thinking can be undertaken and how you can help create a range of views for the future. Learn how to 'Expect the unexpected' by thinking about different possible futures. Build a checklist of key driving forces for change in the social and community housing sector.

Help create to a number of scenarios for the future.

##### Workshop outcomes:

By the end of the course, you will be able to:

- \* describe the elements of successful scenario thinking
- \* recognise the greatest areas of future uncertainty for the sector
- \* identify the consequences of a diverse range of different futures
- \* identify strategies that will help you to be more adaptable to these predictions
- \* apply the frameworks and scenarios learnt to your business

##### Course Preparation

Each participant is asked to bring a lap top to the computer

Session facilitator - Alastair Rylatt

Date : Friday 6th November

Time: 8:30 for a 9:00 sharp start to 5:00 pm

Cost: \$385 (inc GST). (NSWFHA will invoice you for this amount)
