Materials to support development of long term strategic asset management plans available via [Federation website](#)

A number of useful documents and tools are now available via the Federation website for organisations that are developing strategic asset plans. The information can be found under the 'networks' section of our website http://www.communityhousingq.org.au/A7_Networks.html or via the links below.

They include the presentations from the speakers at the recent strategic asset management workshop:

[Long Term Strategic Asset Management \(NSWFHA presentation\)](#)

[Asset Management Planning \(Jitender Balani, CHD\)](#)

[Long Term Asset Plan Overview \(Housing NSW\)](#)

Housing NSW's most recent Design Requirements document:

[Design Requirements \(Housing NSW\)](#)

And HNSW's portfolio realignment strategy (or Long Term Asset Plan – LTAP). This will be an important resource for associations planning their own portfolio strategies. The LTAP provides HNSW's plans for their stock on an LGA by LGA basis.

[Portfolio realignment activities \(LTAP\) - excel spreadsheet](#)

We have also included an indicative checklist for organisations developing a strategic asset plan.

[Checklist for developing strategic asset management plans](#)

We would welcome your suggestions about any further support you would like from the Federation to assist you in developing your strategic asset plans. Please email
